WORK EXPERIENCE

Freelance Developer | 2020 – present

- Yard To Fork LLC - Currently building customer facing PWA and admin functionality to organize and update plant data and customer information utilizing React, Redux Toolkit, and Firebase.
- Hidden Mountain Data - Using Google Bigquery, SQL, and DBT to transform data.
- Onsite Analytics Front End Developer - Worked with React, Redux, Typescript and MUI, Git/GitLab, Kanban boards and Zoom for collaboration. Pair programmed with Sr. Developer on back end and database. Worked with JSON structures, filtering and sorting data.
- Armored Coatings Web Developer - Built a static website for an epoxy company utilizing HTML5, CSS, JavaScript and Bootstrap.

Sacramento City Unified School District

Teacher | 2008 – present

- Built a grading app that I am currently using (Coach's Clipboard), wrote Google Apps Scripts to automate grading, and served as Department Chair for two years.

PROJECTS

Chorzy - React / Redux / Firebase / CSS / Bootstrap

- Mobile first SPA for families to track chores and allowance
- Currently being used by family and friends

Portfolio Page - React / JavaScript / CSS / Bootstrap

- Responsive site to host projects and skills

Coach's Clipboard - React / Redux / Firebase / CSS / SASS

- Mobile first SPA assessment tool for coaches and PE teachers
- Chosen for Nucamp's project spotlight

Armored Coatings - HTML / CSS / JavaScript / Bootstrap

- Landing page for epoxy company in Idaho
